

UNICOMP : UNX200A

เครื่องตรวจจับโลหะแบบเดินผ่าน

(6 Zones Walk Through Metal Detector)

Applications

- Security Check: For Public Place, Court, Jail, Gym, etc.
- Anti-theft: For Chemical, Mineral, Electronics, Hardware Plants, Plastic Manufacturer, etc.
- Education System: For the check of cheating tools in various national standard examinations.

Function

1. Touch screen display: 7-inch HDMI touch LCD, easy to operate.
2. Mobile Internet: remote control by mobile App (optional).
3. Alert: alarming light, alarming sound speaker adjustable.
4. Specialized detection program: 72 standard detection programs tailor-made for various spots(with upgrading services offered).
5. Sensitivity of detection zones: each zone has 256 sensitivity level, 0-255 adjustable.
6. Detection speed: 60-150 people walk-through detection in 1 minute.

Features

1. Multi-Zone Detection: 6 Zones
2. High sensitivity
3. High stability
4. Multi-detection zones with each featuring sensitivity-adjustable;
5. Self-diagnostic when power on
6. 7-inch HDMI touch LCD
7. High strength thick door made of fireproof, corrosion-proof and quakeproof board;
8. Real-time surveillance for background interference;
9. Patented materials, structural components and software copyright.
10. Weight: NW 54KG, GW 68KG
11. Dimensions : 2250mm[H]×850mm[W]×500mm[T]

Specification

Objects Detected	Contraband including mobile phone and metals
Vertical Dimension	2250x850x500mm
Vertical Tunnel Size	2250x710x500mm(700x1500 customized)
Package size for door panels	2310x740x300mm
Humidity	99%(No condensation)
Working Environment	-40°C-85°C
Power Supply	Polymer batteries with endurance of 8, 16, 24, 48, 72 hours (optional)
Input	AC110V-240V/50HZ-60HZ
Output	DC12V/5A 12W
Weight	NW 54KG, GW 68KG
