Plustek eDoc N600

Sync, Search, Share, completely manage documents at ease!

MULTI-LINGUAL · Windows · Mac · Android · iOS · **SEARCHABLE PDF** · **BACK UP** · **AUTHORITY**

The Plustek eDoc N600 is a private cloud dedicated server, tailor-made for SME and SOHO businesses, and office environments wanting to avoid the difficulties of filing paper documents, entering data into a server manually, or searching for files and documents in paper binders.

The eDoc N600 offers a safe and secure 6TB storage space, where employees can quickly share and find business information across the enterprise. The eDoc also creates a simplified work-flow with the innovative sync system, which allows users to back up files automatically to a designated folder, on both PC and the eDoc server from most digital devices (such as scanners, MFPs, and copy machines). Moreover, users will be able to easily access files with the unique batch tag technology. It's easy to sync, search and share documents with the eDoc N600 private cloud server.
